CAREER OBJECTIVE

Highly-motivated, Detail-oriented person, who is very well organized and self-motivated, have a natural passion for continuous learning and development. I took courage to end the chapter of dentistry and discovered new passion which is web development

MY WORKS

Domains Market Page

HTML, CSS, JavaScript

- Panel to filter the list of domains (by categories, domain extension or zone)
- Add to Virtual Cart each product only once
- Responsive Design

Pet Shop

HTML, CSS, JAVASCRIPT

- responsive sticky header with login form and toggle navbar menu effect using javascript.
- responsive sections using css grid and flexbox

Fitness Website

HTML, CSS, JAVASCRIPT, JQUERY

- responsive sticky header / navbar with toggle menu bar effect
- fully responsive

Webpage Which contains user information

HTML, CSS, PHP

- php program that outputs a webpage containing a form with first name, last name and profile picture
- Upload profile picture and show uploaded data and the picture on the same page
- Validate if first name and last name contain only alphabetical characters

Github Repository list and followers generator

HTML, CSS, PHP

- Fetch data about user repositories and followers
- build a list of user repository/followers names linked to the repository/followers
